

## Local COVID Vaccine Resources

\*updated 10/28/2021 with booster information

The **Office of Public Health** announced they are now scheduling booster shots for the Pfizer, Moderna, and J&J (Janssen) COVID-19 vaccines following [FDA and CDC approval](#) for people who meet the eligibility criteria.

### **Pfizer & Moderna Boosters**

For individuals who received a Pfizer-BioNTech or Moderna COVID-19 vaccine, the following groups are eligible for a booster shot 6 months after their initial series:

- 65 years and older
- Age 18+ who live in [long-term care settings](#)
- Age 18+ who have [underlying medical conditions](#)
- Age 18+ who work or live in [high-risk settings](#)

Individuals who received a Pfizer or Moderna vaccine as their primary COVID-19 series must wait at least six calendar months (not 180 days) to receive a booster dose. The booster dose can be either the Pfizer, Moderna, or J&J vaccine. Anyone who received the Pfizer or Moderna series must meet the high risk criteria outlined above to receive a booster shot. Individuals will sign a self-attestation form during their appointment to confirm they meet these criteria.

### **Johnson & Johnson Boosters**

People 18 and older who received the Johnson & Johnson single shot COVID-19 vaccine must wait at least two calendar months (not 8 weeks) to receive a booster dose. The booster dose can be either the Pfizer, Moderna, or J&J vaccine.

### **\*\*Montgomery County Registration Information**

Booster appointments can be made online at [www.montcopa.org/COVID-19vaccine](http://www.montcopa.org/COVID-19vaccine) or by calling (833) 875-3967 Monday through Friday between the hours of 8:30 and 4:30 p.m. Appointments will begin Monday, October 25. Due to recent guidance, anyone requesting a booster will be able to choose which vaccine they want when they arrive onsite for their appointment. All three COVID-19 vaccines are offered at all Montgomery County Vaccination Clinics. There is no cost to receive the vaccine.

Montgomery County operates four COVID-19 vaccine clinics at the following locations:

#### **Bethel Community Church of Pottstown**

575 North Keim Street, Pottstown, PA 19464

- Tuesdays 11:30 am – 6 pm

\*\*\*Below is initial information about vaccines\*\*\*\*

COVID is still a part of our daily lives, and CSCGP is here for our community - continuously innovating our programs to ensure that no one faces cancer alone. We would like to share a message from the National Comprehensive Cancer Network (NCCN). Please see the message below with information from Dr. Robert Carlson, CEO NCCN & CSCGP Medical Advisory Board Member.

We want to share news with you about [new guidance](#) from NCCN for COVID-19 vaccinations in people with cancer.

NCCN has recently formed a COVID-19 Vaccine Committee including top hematology and oncology experts with particular expertise in infectious diseases, vaccine development and delivery, medical ethics, and health information technology. This committee has established recommendations that can help cancer care providers make informed decisions on how to protect their patients from the ongoing COVID-19 pandemic, based on available evidence plus expert consensus.

The committee's recommendations state that all people currently in active cancer treatment should get the vaccine, with some advice to consider regarding immunosuppression and timing. The full document can be found at [NCCN.org/covid-19](https://www.nccn.org/covid-19), along with other vital information about the impact of COVID-19 on cancer care.

To learn more about the committee's thoughts on this urgent need and limited data, please access the [press release](#).

Thank you Dr. Carlson and NCCN for this guidance. For some additional information, please listen to a [podcast from CSC Headquarters](#) as well as review information from the [American Cancer Society](#).

For information about vaccine distribution, visit [PA Department of Health](#); [NJ Health](#), [Delaware.gov](#).

- **Philadelphia County** – Philadelphia residents ONLY
  - To locate a vaccination clinic: [Department of Public Health Website](#)
